

Tips for Coming to Cub Family Weekend

- Consolidate your gear. Put it in a plastic tub, duffel bag, tote, or similar container. Put your name on your gear.
- Be sure to bring medications in sufficient quantities and the original containers. Make sure they are NOT expired, including inhalers and EpiPens. DO NOT STOP taking any maintenance medication.
- Follow the signs to camp and to the parking area. Follow the directions of the parking volunteers for where to park.
- Equipment will be hauled to camp sites, personal vehicles not allowed in campsites – Drop gear in designated area, park in designated parking lot, and walk to your campsite to meet-up with gear.
- A Pack trailer may be taken to the campsite, but tow vehicle must be removed to parking lot.
- Check-In will be at the trail head. Please be sure to check in and get your family's packet. It will contain a map of Wallwood and useful information.
- Wristbands should be worn at all times.
- Please let Camp Director, Micah Kimler, know if you have any special medical or dietary needs. If you need electricity for a medical device, please bring plenty of extension cords.
- There will be an Informational Campfire at 8:00 p.m. at the Council Ring – We hope everyone can attend, but please be sure someone from your Pack attends to get important information.
- Costumes are welcome, no weapons please.
- No Cub Scout is allowed to carry a knife!
- No Alcohol or Firearms allowed in camp!
- Volunteers are needed for a variety of positions including Program Area Leaders for games or crafts. Please let Micah Kimler know of your interest and willingness to help.
- Campers who must leave early for any reason must report to the Administration Building and to Pack Leadership prior to leaving camp.
- Please clean up your campsite before leaving.
- HAVE FUN!
